PROFESSIONAL SUMMARY

Computer Science Engineering graduate with expertise in Data Analysis, Python, and Power BI. Experienced in building end-to-end data projects from text processing to supply chain optimization. Committed to high data accuracy and efficient digital transformation.

EDUCATION

- **B.Tech in Computer Science Engineering** | GPA: **6.50/10.0**
 - Vidya Jyothi Institute of Technology, Moinabad | June 2021 – May 2025
-

TECHNICAL SKILLS

- **Languages & Frameworks:** Python (Pandas, NumPy, Matplotlib, Seaborn, Plotly)
 - **Visualization:** Power BI (DAX, Data Modeling), WordCloud, Seaborn, Plotly.
 - **Tools & Databases:** MS SQL Server, MS Excel, GitHub, Jupyter Notebook, API Integration.
-

KEY PROJECTS

Supply Chain & Inventory Optimization Dashboard (Power BI)

- Built a Power BI dashboard to track material flow and inventory levels for automotive companies.
- Used DAX calculations to visualize supply chain metrics and optimize data visibility for cost reduction.

Zomato India Restaurant Analysis (Python / EDA)

- Performed EDA on a large Indian restaurant dataset to extract market insights and competitive analysis.
- Used Seaborn and Plotly to create visual assets for data-driven marketing proposals.

WordCloud Project (Python / API)

- Built a real-time text processing tool that fetches Wikipedia summaries via API.
- Applied automated text cleaning and visualization to generate dynamic word clouds.
