

SRIKANTH BYAGARI

OBJECTIVE

Detail-oriented Computer Science graduate seeking a Quality Analyst role where I can apply my knowledge of HTML, XML, web technologies, and testing methodologies to validate digital content and ensure high-quality deliverables for clients. Eager to learn and contribute in a dynamic environment.

KEY SKILLS

QA & Testing	Manual Testing, Functional Testing, Regression Testing, Bug Reporting, Validation & Verification, Attention to Detail
Markup & Web	HTML5, XML, ePub Basics, CSS, Hyperlink Validation, Attribute Checking
Programming	C, Python (Basic)
Tools & Office	Microsoft Excel, Google Sheets, Basic Git/GitHub
Soft Skills	Analytical Thinking, Quick Learner, Team Collaboration, Rotational Shift Ready

MINI PROJECTS

Login Page – Web Form Development [[HTML5](#), [CSS3](#)]

- Designed and styled a complete login form with username/password validation using HTML5 and CSS3.
- Implemented form input validation (required fields), hover effects, and responsive layout.
- Connected form to backend handler (process_login.php) demonstrating understanding of client-server flow.
- Applied QA mindset: later identified and corrected attribute-level bugs — a skill directly relevant to Quality Analysis.

Registration Page – User Input Form [[HTML5](#)]

- Built a multi-field registration form with name, email, and password fields with required validation.
- Self-reviewed code and identified typo bug (for='nmae' instead of for='name') — demonstrating quality checking skills.
- Understood form action and POST method flow for data submission.

Web Technology Practice Page – Hyperlink & Navigation [[HTML5](#)]

- Created a web page demonstrating internal and external hyperlink navigation.
- Identified and documented two critical attribute bugs: target instead of target, and herf instead of href.
- This project showcases ability to detect markup-level errors — core competency for XML/HTML QA roles.

EDUCATION

Vidya Jyothi Institute of Technology, Moinabad

B.Tech – Computer Science Engineering | GPA: 6.50/10.0

Telangana, India

June 2021 – May 2025

Global Junior College, Pargi

Intermediate (MPC) | Score: 548/1000

Telangana, India

Aug 2019 – May 2021

Zilla Parishad High School, Pargi

Secondary School Certificate | GPA: 7.0/10.0

Telangana, India

June 2018 – May 2019

RELEVANT COURSEWORK

Data Structures & Algorithms | Web Technologies | Software Engineering | Database Management | Operating Systems | Computer Networks

STRENGTHS FOR QA ROLE

- Ability to identify and document bugs at code/markup level (HTML attribute errors, typos)

- Understanding of web content structure — HTML, XML relevant to ePub/e-publishing domain
- Willingness to work in rotational shifts as per company norms
- Fast learner — able to quickly adapt to new tools, technologies, and QA processes
- Strong attention to detail with analytical approach to problem solving

I hereby declare that the information provided above is true and correct to the best of my knowledge.
